

Japanese ShinKei-suijaku

To make the memory card game, print out two copies of each stamp onto card (28 cards in total, 14 pairs). Make sure the back of the cards are indistinguishable. The cards should be mixed and spread face down on a playing surface. First player turns two cards face up. If they match, they take these cards. If they do not match, the player turns them face down, without changing their position so others can try to remember where each card is.
